WASHINGTON APPOINTMENT STILL UNDER CONSIDERATION

SELECTION OF SUITABLE MAN
IS BIG DIFFICULTY

Ottawa, May 4.—The leavey questions of a more or less abstract nature will be curtailed, the government apparently considering that a large part of the pressure on Messrs. Woodsworth, Irvine, and other members out to legislate the world into the straight and narrow path, has now been relieved. Hereafter the government will take Mondays, hitherto allotted for this purpose, for its own business, but Wednesday will still afford safety valve for the member with a mission.

Mr. McDonald, of Pictou, yesterday called attention, through an instance presented, of one of the particulars in which Canada is still in a position of dependency. This was that we could not take action through the law courts against a foreign government. It was one of the many matters constantly arising between Canada and the United States which could be settled much more easily and expeditiously by direct action from Canada, and emphasized the need for official representation at Washington. Other members supported the idea, and the premier said that the representation of Canada at Washington was still receiving the consideration of the government. It has been in this position for several years past.

UNDER CONSIDERATION
The late government went so far as to include a sum in its estimates of \$60,000 for this purpose, and retained the matter "under consideration" until the close of its official life without making an appointment. The delay was ascribed to the difficulty of getting a suitable representative, although it was understood that there were a number willing to accept the office. The same amount is included in the estimates for this year. Mr. Flaherty has already made several visits to Washington on government business. The large financial transactions between the two countries makes the matter of increasing importance, and if the government can solve the difficulty of personnel, which has bothered its predecessors, an appointment may be expected.

BREEZE FROM ATLANTIC
There was a strong breeze from the Atlantic coast yesterday, and with all sails set, Mr. Buff, of Lunenburg, fairly tore through the ordinarily calm waters of parliament with a lightning survey of deep sea racing, including the Noah handicap, the Red Sea event, up through the American cup trials, until he reached that crowning event, the International Fishermen's Trophy races, of the Atlantic coast, which was his finishing mark. Sam Jacobs reminded him that he was neglecting Joseph, but he refused to go back over his course.

He depicted in robust language the spectacle of a hundred and fifty craft of Nova Scotia sailers putting forth to sea, with all sail set and flags flying, and brought himself up with a jerk. He had observed an amused smile on the face of the opposition, and some clandestine whispering, and he guessed correctly that they were recalling to one another the protest which he had made the other day against an appropriation for flying flags from Canadian public buildings. He "yawed" for a moment, but it did not take the wind out of his sails.

USED AS A SYMBOL
He explained that the flag was only used as a symbol to the wives and sweethearts on shore, and not flaunted in all sorts of weather, as was the custom on custom houses. He then summoned the aid of Joe Howe, showed the economic as well as the sporting value of the fishermen's races, and ended with an eloquent appeal for five thousand dollars to most part of the expense of upholding the maritime honor of Canada at the race in Massachusetts Bay this fall. The house seemed to think the speech alone was worth the money, and the minister, Mr. Lapointe, was affected sufficiently to give the matter something more than the stereotyped earnest consideration.

THE HORRORS OF INDIGESTION

Relieved by "Fruit-a-lives"
the Fruit Medicine

Indigestion, Weak Digestion or any derangement of food, is one of the most serious of present-day complaints—because it is responsible for many serious troubles.

Those who suffer with Indigestion, almost invariably are troubled with Rheumatism, Pimples, of the Heart, Sleeplessness and excessive Nervousness. "Fruit-a-lives" will always relieve Indigestion because these tablets strengthen the stomach muscles, increase the flow of the digestive juices and correct Constipation, which usually accompanies Indigestion.

500 a box, 6 for \$2.50, trial size 25c. All dealers or sent postpaid by Fruit-a-lives Limited, Ottawa.

He moved the adjournment of the debate, so that he could go into the subject carefully.

ECHO OF THE STRIKE

The most serious matter before the house was possibly Mr. Woodsworth's bill amending the Immigration Act. Another of the many echoes of the Winnipeg strike which Mr. Woodsworth has awakened since he has been in the house. It has mainly been applied to those who talk not wisely, but too much, and a good many of Mr. Woodsworth's political supporters are affected. He got support from Mr. Cramer, and the matter will go to a special committee.

MUTUAL TAG DAYS

The house was again drenched with the St. Lawrence river water ways, and the eloquence of Tommy Church thereon, and heard a report of the anthropologists on that, stating British Columbian institution, the potlatch, which was explained as a sort of mutual tag day, where the natives give each other everything they own. It differs from tag days in that those promoting it are sometimes jailed in British Columbia, whereas in the east they have hitherto escaped.

There may be a royal commission to investigate the potlatch. The Indians want this done, and as there have been royal commissions on every other subject, it is not likely the Indians will be discriminated against in the matter.

SIR ROBERT BORDEN EXPLAINS POSITION ON CATTLE EMBARGO

Still Holds View That It Is Purely a Domestic Concern.

London, May 3.—Sir Robert Borden, former premier of Canada, interviewed by The Times on the eve of his departure for Canada, referred to the embargo against Canadian cattle, and said that the subject was discussed at the Imperial war conference in April, 1917, when a full and frank interchange of views ensued. At that time he had explained that he had no desire to attempt any interference in the fiscal policy of the United Kingdom, but on the other hand Canada strongly objected to a policy of throwing an undesired stigma on the country's cattle industry. He had told the minister of agriculture that if it was the desirable that the cattle industry should be protected in the United Kingdom, that was purely a domestic concern, but Canada felt that a fiscal policy was being carried out held that view. At the 1917 conference

under the guise of a sanitary regulation.

HIS VIEW UNCHANGED

Sir Robert declared that he still once he had been given to understand that a definite arrangement was the subject had been reached, and that it was conceded that no valid reason for the maintenance of the embargo existed. He understood that the minister of agriculture had definitely arranged that the embargo would be lifted, although it was appreciated that effective action would have to be postponed until after the war, as no tonnage was available at the time. Sir Robert added that under the circumstances there ought to be no difficulty, and he was confident that the governments of Canada and Great Britain would reach a wise and just conclusion for the removal of the embargo and thus end the undesired stigma on Canadian cattle.

POSITION IS DIFFERENT
It was a question of redressing a grievance by fulfilling an agreement definitely made between two governments. Canada was largely cut off from the market of the United States by a highly protective, practically prohibitive, tariff. The farmers of the western provinces of Canada were then increasingly inclined to take up naked farming and stock raising, but their position was now different. On the one hand, they were debarricaded from the United States market by a prohibitive tariff, and on the other their live cattle were denied access to the British market by an embargo established many years ago on grounds which have long ceased to exist, if they ever did exist.

It would be most unfortunate if Canadian opinion became impressed with the view that an agreement definitely entered into would not be observed, Sir Robert stated.

THE SCOUT LAW

1. A Scout's honour is to be trusted. The statement of a Scout is accepted just as if he had taken a solemn oath.
2. A scout is loyal to the King, his officers, his parents, his country and his employers.
3. A scout's duty is to be useful.

and to help others; the scout must be prepared to do a good turn every day.

4. A scout is a friend to all and a brother to every other scout.
There are scouts in 22 nations of the world and over 2 1/2 million scouts.

5. A scout is a friend to animals.

6. A scout obeys orders of his authority without question. Good training is necessary in all organizations.

7. A scout is courteous. When you meet a scout, you salute him with a Scout salute, and he salutes you with a Scout salute.

8. A scout is clean in thought, word and deed.

9. A scout is thrifty. He saves his money, his energy, his health, so that he is prepared for the "rainy day."

10. A scout is clean in thought, word and deed.

11. The boys to live up to this scout law and make good citizens.

What Scouting Is.

It is a league of boys, and then a world wide league of full grown men.

SCOUT NEWS.

The second Red Deer Troop of Scouts had their first outing on Friday evening, April 28th. Three boys were absent. The Bull Dog Patrol left the Scout headquarters at 7:30 making two trails—a green and a white and the Fox and Wolf Patrols followed the trails to a point west of the railway track where a game of raid the flag was played. Only one scout however reached the flag without being caught and two others were heading for Calgary when the game finished. The defenders "The Bull Dogs" won the game. As it was the first night out the rest of the evening was spent in games. Snatch, the Hat was won by the Wolf Patrol after three games; Skin the Snake had to be played four times and resulted in a win for the Wolves; Tug of War had to be called a draw as no side got the other over the line; Hoppli and Horseback Wrestling and Bucking Broncho were also enjoyed by the boys. The Scouts then fell in and marched back to the headquarters.

where the fell was called and a few minutes' discussion took place before they were dismissed.

Last Friday evening examination for tenderfoot took place and all the boys were keen on becoming registered scouts. To become a Second Class Scout a tenderfoot must know and be able to point out 16 points

of the compass.

Have a knowledge of elementary first aid and bandaging. Know the Morse sign for every letter in the alphabet. Follow a track half a mile in 25 minutes. Lay and light a wood fire in the open, using only 2 matches. Cook a meal in the open.

The tests which the boys will take to pass the Tenderfoot are: Know the composition of the Union Jack and how to fly it; know the Scout law, signs and salutes; the six knots, and know the Scout promise.

KIM.

Montreal, May 4.—Giving evidence this afternoon in the practice court here, Dr. Camille Lavoie, a well known physician of this city, gave it as his conviction that all those who believe in spiritualism are mad and suffer from hallucinations of the organs of hearing. He insisted among those thus afflicted Sir Arthur Conan Doyle, Sir Oliver Lodge, and Maurice Maeterlinck, the Belgian poet.

CONAN DOYLE IS INSANE ALONG WITH OTHERS WHO PRACTICE SPIRITUALISM.

Children

who have once had Zam-Buk applied never forget how it soothes and heals their hurts. Wise mothers never use anything else. Zam-Buk is so pure and so refined that it provides the ideal healer for every sort of wound, abrasion or soreness.

Ask For

Mrs. J. E. Blevins, of Cardiff, Sask., writes: "My little boy cut the end of his finger and it bled a case for a doctor. However, I applied Zam-Buk to stop the pain and bleeding and it gave the child such relief that I continued the treatment. Using nothing but Zam-Buk, I dressed the finger each day, and the wound healed perfectly."

Lovely new fabrics for the fashionable one-piece dress

SILKS, crêpes, serges, prints — all the fashionable fabrics for this season.

Delicately colored cotton voiles and fine cotton crêpes. Printed silk crêpes, too, in summer colors. All are charming — and very fashionable. They are especially desirable for the simple one-piece frocks which demand so much from the materials of which they are made.

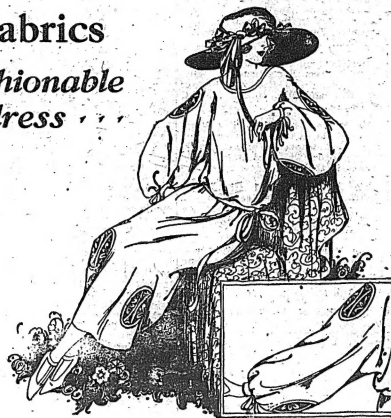

We are showing unusual assortments of these lovely fabrics and the new homespun, ginghams and organdies. Before buying materials for your new frocks come in and see our showing of the spring novelties.

You can duplicate the dress shown here — just as an expert would. With pictures and instructions which apply specifically to the garment you are working on, the Deltor makes successful home sewing possible for inexperienced sewers. Even experienced dress-makers are amazed at their greater

success — at the time and material they save when they follow the Deltor, which comes with every new Butterick Pattern.

The Deltor shows you with pictures and instructions just how to cut, put together and finish your garment like a professional.

Come in and see the new Butterick Patterns and let us tell you about the Deltor which enables you to make your clothes expertly.

Design No. 3631. Very fashionable is this charming frock developed in silk crêpe or one of the interesting new cottons. It depends on the long, wide sleeves for much of its distinction. Sleeves such as these add a note of youth to the whole frock. The fabric trimming, too, is very fashionable. Make yourself a dress exactly like this one. You can duplicate even its look of Paris! With Butterick pattern No. 3631, and its Deltor you can do it easily, simply. And you are sure of success, for the Deltor guides you like a professional dressmaker.

Hunter's Remarkable Trophy

Head of Bighorn or Rocky Mountain Sheep secured last October near Lake Louise, Alberta. This is one of the finest and largest heads ever secured.

The Western provinces of Canada are famous as resorts of big game. Many kinds are to be found, but amongst the most sought are bighorn or Rocky Mountain sheep. The hunters that get a bighorn procure a handsome trophy in the horns. It is said that the biggest and best bighorn heads are to be found in the Rockies. Last October a party of hunters under the leadership of James Simpson, well known Banff guide and hunting outfitter started out from Lake Louise. They hunted through Clearwater, Sheep Creek, and the Saskatchewan River. Many bighorn and wild goats were seen, and amongst the trophies secured was a head with a base 18 inches wide, a left horn 47 1/2 inches, and a right horn 49 inches. The animal weighed 350 lbs. There were twelve bighorn in the group from which this remarkable specimen was taken, and two of the others looked just as large.

Bighorns are very much afraid of men, and they make their haunts in the most secluded places. Some good hunting districts are the southern parts of British Columbia, East Kootenay Mountain, Okanagan district, Valley of the Bridge and Chilcotin River, the Cassiar country, East Kootenay is one of the most favored districts, and hunters set out from Golden, Invermere, Michel, Fernie and Cranbrook, all of which are on the C. P. R.

BRAZIER'S

A Want Ad. in "The News" Always Brings Results

PUBLIC TAKING MUCH SANER VIEW ABOUT INSANITY

Thousands Now Going to Free Dispensaries for Examination.

New York, May 1.—The public is said to be becoming saner about insanity. Formerly used to feel it a terrible stigma if any of their kind were considered "a little bit off," as the saying went. But thousands of such people now go voluntarily to free dispensaries for "nervous and mental disorders."

Last year 8,868 persons in New York State made 9,993 visits to the 40 such clinics conducted throughout the State. Only five or six years ago such a thing was unknown, according to officials of the State Charities Aid Association, which is cooperating in the work.

This organization, pointing to statistics which show the tuberculosis death rate dropped about 24 per cent. from 1907, when the organized fight on the white plague began, to 1920, expects to show the same results in its battle against insanity. The war and the business depression that followed caused a considerable increase in mental disorders, aid association officials declared. They have found, however, that serious worries and diseases are not the only ways that shove the mind off an even keel. Some people become unbalanced by too much recreation, just as others slide from the path of sanity because of overwork, and domestic unhappiness.

What the association intends to do is popularize information concerning the causes, treatment and prevention of mental disorders generally. It contends that 40 per cent. of the 40,000 persons in New York State who are now under treatment in asylums and hospitals for feeble-minded could have been saved from such a fate if the proper preventive measures had been taken in time. It feels that since the asylums of the country have a greater enrollment than the colleges, the people ought to be taught to have themselves examined by competent physicians if they feel queer, or if acquaintances so consider them.

The most hopeful sign for cutting down insanity is in the attitude of parents and teachers toward children, in the belief of the aid association.

ATTENTION TO CHILDREN

"It can help the queer children of the future," one official said. Often the youngsters who are backward and queer merely need to have their tonsils or adenoids removed, the doctors have found. But others have complex, inherited diseases, a neurosis or two fretting their young minds. In this connection, it was said that some of the doctors at the state hospitals make use of psychoanalysis, while others do not believe in it. Patients upon consultation often are told what to stop worrying about, and field agents go around to see how they are getting along. Others are discovered to be worse off than "merely nervous," as they most often describe their own condition, and occasionally these have to be sent to an institution.

Cultivation of health through proper habits of the mind and the cutting out of bad mental habits is one idea that those working on the problem have to put into the public's head. Brooding over being snubbed by others, or misfortunes and injuries is the thing the experts want people to stop doing. Work instead of day-dreaming, these experts say, is a pretty good way to prevent getting top-sided.

DRAFT OF ALLIED PROPOSALS SENT TO THE RUSSIANS

Beligians Not Signed Up. The Document Not Considered Satisfactory.

Genoa, May 3.—The draft of the allied proposal to Russia for the reconstruction of that country, which was sent to the Russian delegation with an amendment offered by the French to the clause relating to restitution of compensation for private property nationalized by Russia, and with a French reservation declaring that the French delegation withholds its final approval until further instructions are received from Paris.

The Belgians did not attend the meeting of the sub-committee on Russian affairs, and the French delegates came late. The memorandum was dispatched without the signature of the Belgians.

This leaves the entire draft in what is described as a very unsatisfactory condition, and affords abundant opportunity for the Russians to offer objections. The French amendment makes the article more drastic, and provides that Russia shall give distinct assurances regarding the nature of the tenure which foreigners are to enjoy when their property is returned to them. Nationalized property has been the basis of practically all the differences of opinion in the sub-committee.

EXAMINER'S REVIEW OF PROVINCIAL MARKETS

Calgary, May 4th

Cattle.—Quite a lot of good steers on the Calgary market yesterday, and prices somewhat improved, with choice making \$6.50 to \$7.25; good, \$5.50 to \$6.25; medium, \$4.50 to \$5; common, \$3 to \$4.50. Cows, choice, \$4.75 to \$5.50; good, \$4 to \$4.75; medium, \$3.25 to \$4.50; common, \$2 to \$3. Choice heifers up to \$5.75. Bulls a little higher again, with top at \$3.50. Not many calves, choice light, \$8 down; common, \$3 to \$6. Steers and Stockers—Some choice quality steers as high as \$5, and others down to \$4; stockers, \$3 to \$4. Good stocker heifers around \$3.25; stocker cows, \$1.50 to \$3. Beef—Good quality steaks at Edmonton and Lethbridge market, and the real topers make \$7.25, but most of the choice steers bring only more between that and \$6.50; good, \$6 to \$6.50; medium, \$5 to \$5.75; common, \$4.50 to \$5.

to \$4.50. Choice cows, \$4.75 to \$5.50; good, \$4 to \$4.75; medium, \$3.50 to \$4; common, \$2.50 to \$3.50; calves, \$1.25 to \$1.75. Choice heifers make \$5 to \$6.25; good ones, \$4.75 to \$5.50. Bulls also higher, with best at \$5.50; others, \$1 to \$2.50. Calves \$2 to \$3 for choice weight, common, \$1 to \$2. Feeders and Stockers—Good buying for shipment to eastern markets and U.S. Alberta stockers, \$12.50 to \$13.50; choice, \$13.50 to \$14.50; medium, \$12.50 to \$13.50; good, \$11.50 to \$12.50; common, \$10.50 to \$11.50. Sheep—Choice, \$12 to \$13; good, \$11 to \$12; medium, \$10 to \$11; common, \$9 to \$10. Hogs—Choice, \$12 to \$13; good, \$11 to \$12; medium, \$10 to \$11; common, \$9 to \$10.

Calgary prices last weekend held unchanged, if not a trifle lower. Prices on today's arrivals \$12.50 to \$13.50. Hogs—Market at Edmonton more active than week ago, with Wednesday's price \$12.35 on long haul loads; looks like \$15.00 for Thursday.

Sheep—Not many in Calgary towards end of this week. Prices probably around the same, as fat sheep are scarce; choice lambs from \$12 down; wethers, \$2 down; ewes, \$3 down. Sheep—Receipts light at Edmonton, and prices steady, with choice lambs, \$10 to \$12; wethers, \$8 to \$9.50; ewes, \$6.50 to \$7.50.

Wheat prices are subjected to the usual fluctuations which are to be expected towards the close of the season, when the supply, as well as prospects of the new crop, are factors. Export buyers are taking both old and new crop wheat and follow market advances for a time and then drop out. Coarse grains are showing a stronger demand. Seeding conditions on the prairies are very favorable. Manitoba has some wheat up and Saskatchewan and Alberta are making good headway, with the seed better than it has been for a number of years and spring prospects very favorable.

Produce—Calgary buying on grade now extra, 27c; No. 1, 23c; No. 2, 18c; cracks, 12c. Creamery Butter—No. 1, 24c; No. 2, 22c; butters, 18c to 20c. Eggs—Receipts light at Edmonton, and prices steady, with choice, \$1.25 to \$1.30; medium, \$1.10 to \$1.20; common, \$1.00 to \$1.10.

Butter—Receipts light, only fancy table wanted, quoted at 25c to 28c at retail, steady. Butter—Prices unchanged; receipts not showing much increase, due to some extent to unwillingness of shippers to send in small cans, and stand charges; greater production expected very soon from eastern dealers. Potatoes—Weaker and dealers now quote 11c to 12c, Calgary.

Produce—Dairy Products—Cream and creamery butter prices unchanged on Edmonton markets; butterfat coming moderately; butter prices east and west lower, and likely to affect Alberta, when surplus has been placed. Eggs—Dealers buying now on grade, with extras etc.; No. 1, 23c; No. 2, 18c; cracks, 12c; couple heavy and care shipped east; buyers expected to improve quality by prompt shipping. Eastern market dull, and prospects of heavy make there; prices basis Alberta large 12c. Potatoes—Receipts for storage stocks fair; live receipts very light; prices unchanged.

Hay—Steady and demand fair, good upland bought by dealers from farmers at \$17 to \$22, according to shipping point; practically no timothy offered. Free freight certificates granted previous to April 30 can be used up to May 15.

Furs—New York auction showed no change in values and western dealers quote unchanged and business good this week. Montreal sale comes on next week.

Hides—No improvement and nothing in sight; dealers still buying few at 3c for green salted and dry hides at 5c.

PENNY POSTAGE MAY COME BACK TO OLD COUNTRY

Cheaper Rates and Radio Telephones Discussed in British House.

London, May 4.—The possibility of the restoration of penny post next year, and the development of broadcasting by wireless telephones were features of the discussion on the post office estimates in the house of commons today.

Mr. E. G. Kellaway, postmaster general, forehanded the return of the penny post if the trade improved during the year.

An extraordinary picture of wireless telephony in the future was painted by Mr. Kellaway and Sir Henry Norman, who is a recognized expert in wireless matters. Members of the house were asked to look forward to the time when their speech in the house would reach simultaneously those of their constituents and desired to hear them.

In introducing the post office estimates, the postmaster general said he estimated that the department would have a surplus for the current year of £2,320,000, whereas £7,500,000 would be devoted to a reduction of post office charges.

Expenditure, he said, would show a reduction of £10,000,000. The staff had been reduced by 6000 during the year and now showed a reduction of 6000 from the 1914 list, despite the number of new services operated.

The postage on letters to other parts of the empire and the United States, said the postmaster general, would be reduced from two pence to three half pence for an ounce with the charge for each additional ounce the same as at present. He estimated that this concession would cost £1,500,000. The proposed reduction of £10,000,000 would be a ten per cent. increase in the number of letters posted.

Mr. Kellaway announced that it had been decided to permit the establishment of a limited number of radio telephone broadcasting stations. Any one desiring to install a receiving set might obtain a license from any post office for ten shillings.

No Bargain

"Dear John," the wife wrote from a fashionable resort, "I enclose the hotel bill." "I enclose the hotel bill," she responded, "I enclose check to cover the bill, but please do not buy any more hotels at this figure—they are cheating you."

TORNADO INJURED THIRTY AND CAUSED GREAT LOSS NEAR AUSTIN, IN TEXAS

Austin, Texas, May 4.—Approximately 30 persons were injured, several seriously, and property damage of \$400,000 was done by a tornado which brushed Austin late today and swept down upon Pecosfield, a suburb.

Late tonight it was reported that the storm had struck again at Oak Hill, eight miles south of here, and killed four people.

Heavy damage also was reported at Edward's college and at the negro deaf, dumb and blind institute, both located in Pecosfield.

Railway News

Vernon, B.C.—The Canadian Pacific Railway has completed at Okanagan Landing an extension of its ice house at that point, giving about 20 per cent. additional storage capacity. Besides this there will be an artificial railway siding, which will enable the workmen to crush the required ice in advance of arrival of cars, so that when cars come off the lake, the loads may be put to ice house and the entire train loaded with one movement of the switch engine. This should materially hasten the movement of the fruit from Okanagan Landing. It is expected that cars will be iced in about four minutes each.

The amount of ice put out at Okanagan Landing this year is 8,500 tons. It was brought from Banff and is exceptionally good, and should be adequate for a very prosperous season.

How medical advice was conveyed by wireless and acted upon with benefit to the sufferers was told by Dr. E. W. Drury, surgeon of the Canadian Pacific "liner Metamora," upon the arrival of that vessel from Canada at Liverpool.

During the "Metamora's" eastward run five wireless messages were received from three steamers, the "Accumulator," "Loring," "Dunbridge," and "Agadir," asking for advice.

With regard to the treatment of the chief engineer of the "Canadian Raider," who was suffering from kidney disease, (2) A man on the "Dunbridge," who had sustained a severe crush of the right hand, (3) A fireman who had been the victim of a serious accident on the "Metamora."

Five replies were sent at the instigation of Dr. Drury, the "Metamora" being at that time at least 200 miles distant from the vessels named.

Replies were that satisfactory progress was attending the treatment of patients in accordance with Dr. Drury's instructions.

Calgary—"I did the company out of \$2.50 and I have hardly been able to sleep ever since. I enclose a receipt for the money. I am sorry for what I've done."

This was what a man now residing in Eastern Canada wrote J. E. Proctor, District Passenger Agent of the Canadian Pacific Railway. He apparently has been much troubled ever since he "put it over," and has done what his conscience dictated. "Do you receive many of these kind of letters?" asked a press representative when Mr. Proctor showed him the letter. "Oh, yes, quite a lot," said the District Passenger Agent, "probably on the average one a month in this division alone. I cannot say what it might be before the whole of the Canadian system. Of course I am referring to the passenger department alone for there are many others."

Mr. Proctor called for his "conscience" file, which bore out his remark that it is a very common occurrence for people "to lose sleep" after defrauding the company. Some of these run into four or five hundred dollars, and one of them some little time ago returned the company \$75. He had taken advantage of a settler's rate, but instead of going on the land he went to Vancouver and engaged in some other occupation. On one occasion a man wrote enclosing \$5, of which amount he had been defrauding the company, and this occurred many years ago.

Montreal.—The Dominion Express Company have had in operation in Montreal during the past few months a new system for the conveyance of express shipments in transfers between stations in the city, and the distribution of delivery and collection shipments in districts situated far from the city, and the railway stations. This is the tractor trailer system. The tractors are simply two-ton trucks, with a fifth wheel or turning plate mounted on the chassis in place of the ordinary truck body, and in the centre of this fifth wheel is one portion of the automatic coupling device. The trailers are large, completely enclosed bodies, with a capacity of three and a half tons, or 315 ft. cubic measurement, each mounted on four rear wheels, with solid rubber tires, and two small front wheels, with folding legs, to hold the trailer up and permit of movement to any desired position when free from the tractor. On the front of the chassis of the trailer are two small wheels for mounting the tractor on the wheels on the tractor, and permitting turning of the equipment within a small radius when the tractor is stopped. The other portion of the coupling device by which the tractor and trailer are coupled.

The process of coupling and uncoupling is a matter of seconds only, and is easily accomplished by means of a lever. The driver never leaves his seat. On the road the trailer brakes itself automatically. The station staffs attend to the loading and unloading of the trailers, which have forty to fifty loads daily. The two tractors are continually in motion hauling these trailers to and from the station to another and travelling from ninety to 100 miles each daily. The whole system is operated on a regular schedule. For delivery and pick-up, too, the trailers are used as substitutes.

By this system the movement of transfer has been expedited, and has been made clear of transfer matter, and economies have been effected. The system is really a slow movement and smaller capacity of wagon transfer.

Cash Auction Sale

Having received instructions from GEO. STAPLES, I will sell by Public Auction at his home, 14 mile South of Memorial Hospital, Red Deer, and opposite James Bowser's, on about time of sale.

SATURDAY, MAY 13th, 1922

at 1.30 O'CLOCK.

WEDNESDAY, MAY 10th, 1922.

HE CAN ALSO PLAY

Amidst the tremendous responsibilities and perplexities of office, says the Winnipeg Tribune, Lloyd George is able, once in a while, to take a day for rest and recreation. The other day he went for a long drive along the coast and took luncheon in the open air overlooking the sea. After luncheon "he walked for miles and went over stocks and stones at their steepness like a boy." Down in the fishing village he chatted with the children and wrote postcards for little boys who clamored for his signature.

The whole picture is descriptive of the self-control and resourcefulness of this wonderful man. He is able to throw off the heaviest cares at a moment's notice and enter into the enjoyments of the outdoors.

Most of the men who do great things are able to forget their responsibilities and worries. Gladstone, Disraeli, Roosevelt, Lincoln, for example, Woodrow Wilson had no time for recreation. He paid the usual penalty.

Does anyone suppose that Lloyd George would be at Genoa today if he did not have the habit of relaxing occasionally?

TAXES AND CAPITAL

(Barrow's Weekly.)
Opponents of capital must learn that enactment of a high progressive surtax in the income tax law was like the victory of Pyrrhus. Beginning at \$5,000, the rate increases until it becomes confiscatory for large incomes. If a man invests in a productive enterprise and receives an income of \$50,000, the government takes \$20,190 out of it. If he earns \$100,000, he can retain only \$38,810. Should he earn \$200,000, the government would take \$123,890 and leave him \$66,110. Courts hold that capital is entitled to a fair return. For two seasons the Soviet took the peasants' grain from them and at the third season they refused to plant except for their own needs. Now, Russia is starving. Take away the incentive of a return and capital will not be risked in any enterprise. That is why new productions are falling off so rapidly. Capital is the life blood, but the surtax is a halter around its neck to strangle it.

The "drys" are not telling very much these days, and the "wets" are talking enough for both, and one would think to hear them tell to listen to the walls of wet and semi-wet newspapers, that prohibition had been a curse to the country, that a second man and even the girls, carried a bottle of whiskey or home-brew, that bootlegging was the most prosperous industry in the country, and that drunkenness was ten times as bad as before prohibition came into effect. But this is some of it, liquor hysteria, and the rest of it, or most of it, plain lying. Charles Constable Dickson, of Toronto, has just issued his yearly report, and this shows that in Toronto, the second largest city in Canada, the police court figures for drunkenness last year (1921) were 4,227, as compared with 14,247 for 1914. Cases of disorderly conduct, 1,084 as against 2,724 in 1914, and cases of vagrancy, 1,053 as compared with 2,015 in 1914; or a total of all three, of 6,849 for 1921 as against 16,996 for 1914. The population has increased 52,522 in that time, but cases of drunkenness, disorderly conduct and vagrancy have decreased 12,132. The population has increased eleven per cent, but the drunkenness, disorderly conduct and vagrancy have decreased sixty-four per cent. Not only so, but there has been a decrease in other crimes. In 1914, ordinary offences (not including violation of Motor Vehicle Act and city by-laws) numbered 29,441; while in 1921, with eleven per cent increase in population, they had decreased to 16,779, a decrease of forty-two per cent.

BE A FARMER!

(Calgary Alberta)
The farmers just about have their share of premiers in Canada. John Oliver of B. C. is a farmer; Herbert Greenfield of Alberta is a farmer; the next premier of Saskatchewan will be a farmer; Norman McLeod is partly farmer; and his successor will be a farmer; Drury of Ontario is a farmer; Bell of P. E. I. is a farmer. In addition, among the provincial premiers, there are two lawyers and one merchant.

CENTRAL ALBERTA
DIS. CONVENTION
OF W. C. T. U.

The tenth annual convention of the Central Alberta District of the W. C. T. U. was continued Thursday afternoon. Mrs. McKinney led an interesting discussion on the duties of officers, also giving a few helpful points on increasing our membership. An excellent supper was served in the basement of the church, provided by the ladies of the W. C. T. U. In a few well chosen words Mrs. McPherson, our President, extended greetings to the visiting delegates. Dr. G. D. Locke, Mrs. Armstrong, Olive, replied for the visiting delegates. An interesting part of the evening's entertainment was the gold medal contest, Velma Trimble, Red Deer, Grace Estley, Selkirk, Miss Hall, Oids, taking part. Velma Trimble being the successful contestant. As other contestants failed to appear, Misses Gertie Reilly, Lorna Bennett and Hilda Bennett kindly filled in.

Solos by Miss Patterson, "A Perfect Day," and Mr. Kenney, "The Holy Day," were very well received. Mrs. McKinney gave a very interesting talk, comparing temperance conditions today with conditions 20 years ago. The advance was very striking, which proves the helpful work the W. C. T. U. is carrying on. Friday morning's session was taken up with hearing reports from the various towns, and a talk from Chief of Police Streetfield. The chief is a believer in the firm disciplining of children, and wishes that the ringing of the car horn should be strictly enforced. He made a strong plea for the moral support of the public.

The election of officers followed: Mrs. Coote, Clive, was re-elected President. Mrs. Armstrong, Vice-President. Corresponding Secretary, Mrs. Peole, Wetaskiwin. Recording Secretary, Mrs. Bercht, Didsbury. Treasurer, Mrs. N. W. Brown, Oids. Mrs. F. W. Gaetz, essay contest superintendent. Mrs. Silkie, Camrose, L.T.L. Supr.

Mrs. J. A. McPherson, medal contest superintendent. A very interesting paper was read by Mrs. Gaetz, dealing with social evils. On the whole the convention was a great success, and the delegates on their departure expressed their appreciation of the kindness and hospitality of the people of Red Deer. Our convention will be held at Lacombe next year.

Among the delegates and hostesses were: Mrs. Melett, Stettler, and Mrs. Bercht, Didsbury, with Mrs. Seandee. Mrs. Frick and Mrs. Brown, Oids, with Mrs. Shepherd. Mrs. Gaiser, Didsbury; with Mrs. Houston. Mrs. Leitch and Mrs. Holsted, Camrose, with Mrs. Irish. Mrs. Coote and Mrs. Armstrong, Clive, with Mrs. Carcadin. Mrs. Coveville and Mrs. Brail, Lacombe, with Mrs. A. H. George. Mrs. Reiber, Didsbury, with Mrs. McGreggor. Mrs. Lorne, Stettler, with Mrs. Baker. Mrs. Lee Godden, Stettler, with Mrs. Joe. Cole.

Mrs. Eastley and Miss Eastley, Selkirk, with Mrs. Bennett. Mrs. McKinney, Carletonplace, with Mrs. Crummy. Mrs. Peole, Wetaskiwin, with Mrs. G. W. Smith. Mrs. L. C. McKinney, ex-M.L.A., Carletonplace, Provincial President of the W. C. T. U., delivered a stirring address on the Liquor Act, and its enforcement. The speaker remarked that they had been hearing echoes of the Liquor Act, and that the delegates are being asked throughout the province. The claim is made that the public are the victims of fanaticism and the temperance people are professional joy-killers who get the liquor law on their statute books somehow, without warning. This sort of argument must have a right to pass the law. Yes, society has the right to protect itself against sinners, whenever there was a body of sentiment sufficient to pass the legislation.

There had been nearly 150 years of education and 50 years of intensive effort with definite open propaganda. The Dominion government passed by an overwhelming vote of the male portion of the electorate, as the women had no vote at that time. The act was one of the best pieces of legislation that has been passed. Has it? No, not seriously. During the war we were taught to conserve. The people rose up indignantly and insisted that the brewers and distillers would have to serve as well as others and not waste the nation's food supply. The Dominion government passed the law, so that the ordinary individual there was no liquor available for beverage purposes. The thirty-one must have a drink, and the traffic never did know what the temperance man had to say. It was not until a clause was discovered in the Act which could be stretched and allowed the druggists to obtain permits and they began to sell in this patriotic way.

After the war the Dominion Prohibition Committee was set up to look into government and asked for a vote on total prohibition after the war. A series of side-walks were maintained. The government did not grant the request, but gave a vote on the question of prohibition. The result was not what the temperance people wanted, but it was the only thing in sight. The liquor law was brought in and the Dominion order-in-council was brought into effect. Hence we have this work which is never willing to submit to anything that curtailed their operation. When the bars were open, the hotel keeper who did not

post the law was pointed out as a singular individual. We have only a small measure of prohibition law; we can't have real prohibition till the Dominion laws supplement and coincide with provincial laws. We only prohibit the retail sale, and now the legislation, but the brewers still manufacture. However, we are going on towards prohibition.

No law enforces itself. We must have a strong sentiment. We know of pupils in Alberta where there has been no temperance school for five years, and Sunday schools with no pledges signed for seven years," declared the speaker. "We need organization now as we never needed it before, the liquor forces have never relinquished their activities, sometimes hideous and underground. Temperance people available to be too easily discouraged. We seemed to expect impossibilities and imagined the millennium had come when we passed the Act."

A. Walker from Kamloops remarked recently that the first 25 years was the hardest to enforce the Act, according to their experience. It takes time to get it out of the blood and the system. The speaker had gone to Dakota herself when the law there was 25 years old, and she lived there 11 years. We were treated with respect and respect from Canada. But while a blind didn't dare to equal in part of the State, it was different in one of the counties where very little effort was made to enforce the law. It was the same law with different enforcement.

We must consolidate the sentiment back of the law. "We must enforce it, repeat it." But we can enforce law in British Columbia. We're fighting a great commercialized drink traffic—the bootlegger and the drinker only incidentally. Our persons are limited at best. We are asked to transfer our sympathy for the suffering wives and the children of a few years ago to the thirty individual who, at his next breath in an effort to discredit the Act, will say that he can get all he wants to drink. The wives and kiddies in unfortunate homes have no personal liberty. We're fighting a great commercialized drink traffic—the bootlegger and the drinker only incidentally. Our persons are limited at best. We are asked to transfer our sympathy for the suffering wives and the children of a few years ago to the thirty individual who, at his next breath in an effort to discredit the Act, will say that he can get all he wants to drink.

The people who didn't want prohibition are the people who want to break down the law now. They use the term "modernization" because that sounds prettier, but it's the same crowd. They spin some plausible yarns, and the first thing we know they are peddling some law. We need to hear that the third thing means for the transmission of news were the telephone, telegraph, and "tell a woman," but the women have no monopoly on the business. Talk and action for prohibition; meet and challenge this "insidious campaign" that "things are worse than they are." They are not. Challenge for proof. The women may be drinking now, but they drank before. We are not that they are selling to 294 places in Calgary. What are the citizens of Calgary doing? Do the people of Calgary forget how much worse it used to be? We must hold the ground we possess.

MEMORIAL PLANS
DISCUSSED BY
CITY COUNCIL

(Continued from Page 1)

with other places in regard to their treatment of curbing intemperance.

COMMISSIONERS' REPORT

The Commissioners reported as follows:
1. Provision will have to be made for the care of an old man, resident of Red Deer for many years, who is helpless and cannot be left to live alone. We have tried to find an institution in Alberta where he could be sent, but there are only two at Daysland and the General Hospital at Macleod. We do not consider the home at Daysland would be a general for this case, and the hospital at Macleod has no room at present. We have found a place where he can be looked after for a time for \$150 per day, and recommend that he be sent there until permanent arrangements can be made.

2. Chief Streetfield reports that Jones & Washburn will take the pound, and we recommend that they be appointed poundkeepers for the year.
3. The plank sidewalks will have to be gone over and repaired soon. There is a strip of sidewalk maintained by the Soldiers' Hospital that is not used now, and we recommend that this be removed and the material used in repairing other walks.

4. Some repairs will be required on some of the streets, and the crossings and asphalt put in cracks on the walks. We recommend that this work be done when time is available. We will report later on street grading and cinder walks.
5. We submit by-law authorizing the signing of transfer and lease to the British American Oil Co.
6. The bridge over the creek on 1st St. South has been repaired and reopened for traffic.
7. We submit herewith statement

of taxes collected to the end of the first period of discount.
8. We submit statement of receipts and disbursements for April.
9. We submit departmental reports for April.
10. We submit accounts for your authorization to pay.
All of which is respectfully submitted.

DR. J. COLLISON

A. T. STEPHENSON

Commissioners.

The report was adopted.

TAX COLLECTIONS

The following special report in regard to tax collections was submitted for information:
Total amount current taxes collected.....\$59,873.22
Business taxes.....4,732.32
Gen'l & Debutent.....20,550.05
Public School.....20,530.30
Separate School.....619.54

Discount allowed approx.....6,127.65

A. Walker from Kamloops remarked recently that the first 25 years was the hardest to enforce the Act, according to their experience. It takes time to get it out of the blood and the system.

The speaker had gone to Dakota herself when the law there was 25 years old, and she lived there 11 years.

We were treated with respect and respect from Canada. But while a blind didn't dare to equal in part of the State, it was different in one of the counties where very little effort was made to enforce the law.

It was the same law with different enforcement.

We must consolidate the sentiment back of the law.

"We must enforce it, repeat it."

But we can enforce law in British Columbia.

We're fighting a great commercialized drink traffic—the bootlegger and the drinker only incidentally.

Our persons are limited at best.

We are asked to transfer our sympathy for the suffering wives and the children of a few years ago to the thirty individual who, at his next breath in an effort to discredit the Act, will say that he can get all he wants to drink.

The wives and kiddies in unfortunate homes have no personal liberty.

We're fighting a great commercialized drink traffic—the bootlegger and the drinker only incidentally.

Our persons are limited at best.

We are asked to transfer our sympathy for the suffering wives and the children of a few years ago to the thirty individual who, at his next breath in an effort to discredit the Act, will say that he can get all he wants to drink.

The people who didn't want prohibition are the people who want to break down the law now.

They use the term "modernization" because that sounds prettier, but it's the same crowd.

They spin some plausible yarns, and the first thing we know they are peddling some law.

We need to hear that the third thing means for the transmission of news were the telephone, telegraph, and "tell a woman," but the women have no monopoly on the business.

Talk and action for prohibition; meet and challenge this "insidious campaign" that "things are worse than they are."

They are not. Challenge for proof.

The women may be drinking now, but they drank before.

We are not that they are selling to 294 places in Calgary.

What are the citizens of Calgary doing?

Do the people of Calgary forget how much worse it used to be?

We must hold the ground we possess.

"Tanlac did what everything else failed to do." Thousands have said it. So will you—Gaez-Cornett Drug & Book Co.

Tanlac is the result of years of study, experiment and research. Hence its merit. Gaez-Cornett Drug & Book Co.

Council adjourned at 12:10 a.m.

GAETZ AVE. LIMITED RED DEER

WEEKLY NEWS BULLETIN

Issued by the Publicity Commissioner, Government Buildings, Edmonton.

CROP RETURNS, 1921.

Return of crop yields for 1921 have not been compiled by the agricultural department from reports given from 3144 threshing rigs in the province. We think it is about only three-fourths of the threshing rigs in the province, the averages shown now from the returns give a good general indication of the average yields over the whole province for 1921. The returns from the 3144 machines give a total yield of all grains of 56,447,572 bushels. A comparison of the average yields of various grains for 1921 with the average yields for the 10 years previous is interesting.

	Av. yield 1921	Av. yield 10 yrs. previous
Winter wheat	20.55	20.55
Spring wheat	11.70	13.53
Oats	30.13	35.09
Barley	32.56	35.09
Rye	11.97	10.45
Flax	4.78	7.73

GRASSHOPPER CAMPAIGN.

Farmers and municipalities are entering vigorously into the campaign to combat the grasshoppers, and organizations have been effected in many districts. Large supplies of poison bait mixtures are being shipped out by the agricultural department, and while there are few indications yet of the appearance of the pest, there is every prospect of a determined effort to deal with the grasshoppers when they do appear.

Prof. W. J. Stephens, formerly Principal of Claresholm Agricultural School, and lately with the U. G. O. and the Calgary high school staff, has now taken up his duties as the department of agriculture as commissioner of field crops, and will assume the post formerly occupied by J. D. Smith as superintendent of the seed and weed branch. Mr. Stephens is to give considerable attention to the matter of weed control, and also to the matter of new markets for seed grain and the encouragement of seed grain production in the province.

Landowners in the South Macleod Irrigation District will vote on May 15 on the issue of bonds for \$250,000 to cover cost of construction of their irrigation project. Fictitious of the bonds of the United Irrigation District, for \$250,000, was made by the provincial irrigation council on May 9.

Considerable interest is being taken in the possibility of establishing a municipal hospital district at Olds. Hon. R. G. Reid, minister of municipalities and health, addressed a meeting held there last Saturday, at which the matter was discussed.

Arrangements are now being made by the department of agriculture for the carrying out of the provisions of the new act requiring the licensing of produce merchants in the province. Announcement will be made shortly of the provisions by which this act will be administered, and of those who will be required to obtain a license.

Appointments have been gazetted at R. C. Morrison of Empress, Bert Williams of Bashaw, and Ewing Smith of Car, as Sheriffs of Badin, and of A. C. Johnson of Carbon as Coroner.

Authorization has been given to the organization of the Co-operative Credit Society of Cardston.

REDUCTION FAIR PRIZE LISTS

Following a decision by the executive of the Alberta Fair Association, a special committee of the executive has just completed work on a standard prize list for all fairs in the C. D. and E. classes which will reduce to a certain extent, by elimination of duplicates, the amount of prize money paid out at fairs. This standard prize list has been issued by the superintendent of fairs in pamphlet form and sets out the conditions under which it will be administered. Max-

imums are fixed as follows:

C class maximum for horses and cattle, first prize \$15, for sheep and swine, first prize \$5.
D class maximum for horses and cattle, first prize \$10, for sheep and swine, first prize \$5.
E class maximum for horses and cattle, first prize \$8, for sheep and swine, first prize \$4.

In addition, to the elimination of duplicate regulations have also been approved which provide that no grant shall be paid for poultry exhibits at summer fairs, where winter poultry shows are also held, that no prizes should be offered for threshed grain at summer fairs. Sheat grain only should be recognized, grants may be forfeited in cases of false permitting gambling, objectionable games or immoral exhibitions on the grounds during fairs.

By a decision of the supreme court of Canada, Hon. Chief Justice Harcourt has been confirmed in his position as chief justice of the province, as a result of the controversy which arose when the courts of Alberta were divided into two divisions and Chief Justice Harvey was made chief justice of the trial division, and Mr. Justice Scott made chief justice of the appellate division. The question then arose as to who was chief justice of the province, and the matter was taken to the supreme court of Canada with the above result.

The public utilities board of the province refused to name companies in 1921 the right to sell shares. Most of these were oil companies, and the two were proposed coal concerns. The nine companies had a proposed total capitalization of eleven million dollars.

Organization of a municipal hospital district is being undertaken in the district of Westlock, where a meeting was held last week. Disposition is also being made in the reorganization of the municipal hospital district in the Pincher Creek territory.

Officials of the women's institute branch at Lethbridge are preparing an itinerary for the coming season. Large numbers of requests have come in for extension as work in the plans of short courses, and many societies are planning to take advantage of the courses, if possible.

Equalization assessment board of the province is now in the Lethbridge and Cardston district investigating appeals against the equalization of assessment.

Plans are being laid by the municipalities department for the framing of the new city act which will be a uniform act for all six cities of the province. Hon. R. G. Reid, minister of municipalities, is now making arrangements to have an act drafted, after which representatives of the cities will be called into consultation.

Farmers of the Taber district who are included in the new irrigation scheme in that district are displaying keen interest in potato production, and with the advent of irrigation this promises to become an important feature of farm production in that district.

New creameries are being built in several sections in the northern part of the province. Cheese factories are being erected at Rosington, Round Hill and Calmar, and a creamery is being built privately at Wetaskiwin. A creamery is also being built at Ponca River Crossing, another at Berwyn, and of steel on the E. D. and B. C. These are all private concerns.

THE COMMITTEE IN CHARGE OF THE

two government stations have decided that the Government Clydesdale Stallion "Craigie Masterpiece" will stand for service for the season of 1922 at Calgary and Red Deer, week about, starting May 15th at Calgary, week starting May 22nd at Red Deer, and so on throughout the season. Also that the Government Percheron Stallion "Obi" (6448) will stand for the season of 1923 at High River.

THE VALUE OF THE HOME

The Sentinel, Toronto, in speaking of the value of the home, says:

If the young men and women who join their lives and fortunes and set about the making of a home could be made to understand the full extent of their privilege, there would be no need for scores of reforming societies that now exist. There is no higher purpose for a couple than to establish a real home, to people it with children, to teach them what are the fundamentals of happy and successful lives, and train them up to manhood and womanhood in the fear of God and love for humanity. It may sound prosaic to those who feed on excitement. It may not appeal to those who appraise the frothy pleasures of society as the desirable things to seek. Unwillingness to bear the burdens, and fulfil the responsibilities, of parenthood lie at the root of most of our social ills. And yet, the surest path to the durable satisfaction of life is the recognition of the blessings that flow from the faithful performance of those primary duties. Daily manifestation of the love of parents for their children is a lesson learned that is never forgotten. All the struggles made to feed, clothe and educate them are remembered as among the most cherished memories of life. To men and women properly constituted, and who have a knowledge of what is the real basis of happiness and success, the trials of the home are not felt in the balance when the joys of parenthood are weighed against them, and when the shadows begin to fall, the care of those who owe so much to father and mother light the way down the hill.

The home should be—and can be made—the stronghold of civic virtue. But, like every good and perfect gift, it comes from God and through God. To give the world men and women who are strong and true is the best that parents can do for their children and generation. What a pity it is that so many fall in that respect. A nation of good homes is safe from all the dangers of dissatisfaction and unrest. Nothing can take the place of well-ordered domestic life.

DISTRICT AGENT REQUIRED

by the Capital Life Assurance Company for Red Deer and district. Apply to A. J. Macdonell, District Manager, Grain Exchange Building, Calgary, May 8, 1922.

Railway News in Brief

Forestburg, Alta.—Word was received by C. J. Smyth, convener of the board of the railway committee, that work is being done on the C. P. R. branch from Coronation running northwards through Bulwer, and that a gang of men is employed finishing up the track on the bridge a little north of Lethbridge.

St. John.—Track work on the C. P. R. main and branch lines throughout the New Brunswick District is commencing. Island Number One, at the mouth of the McKellar river. Superintendent Woodman advised recently. He said that in addition to replacement of worn-out ties, there would be laid on the main lines upward of fifty miles of new heavy steel and that upwards of 80 miles of rails will be relaid by heavier steel on the branch lines, including the Shore Line.

Furt William.—Over half a million dollars will be spent by the Canadian Pacific Railway this summer upon improvements to their big coal bucket on Island Number One, at the mouth of the McKellar river. Superintendent Hawkins announced recently that the 1922 estimates included an appropriation for the work, and that construction would start in the summer. The improvement will consist of a huge storage or distribution crane, and general enlargement of the coal handling and storage facilities of the docks.

St. John.—While crossing from Goose Bay to Lethbridge, Mr. Peter Hendrickson, a Swede named Mrs. Hendrickson, a widow, fell in love with Mrs. Margaret Cram, a widow, who was accompanied by her two daughters, who are also proceeding to Canada. Within twenty-four hours of arrival in Lethbridge a special license was obtained and the marriage took place at the Brownhill Registry Office. Mrs. Cram's age was given as 35, while Mr. Hendrickson is 58. The honeymoon was spent crossing the Atlantic on the "Melita," and the happy party is settling at Minnedosa, Manitoba, where the bridegroom has a farm. Both bride and bridegroom are of Swedish nationality.

Vancouver.—Mr. H. J. Louchman, who is in charge of the farm land department of the Canadian Pacific Railway at Vancouver, reports that business was very satisfactory during 1921, and that he expects to do even better for this year.

During the year 1921, 6820 enquiries for information regarding land, timber, and general conditions in British Columbia and the prairies. Sales were made directly and indirectly to 320 persons, of whom eighty were single men and the remainder men with families. About 1000 acres of land were sold at an average price of \$18 per acre, about \$2,376,000 of property being sold.

During the past two months the company has been advertising Columbia Valley lands, as a result of which 397 enquiries have been received and forty applications for land made.

With the intention of still further popularizing the St. Lawrence route to Europe the Canadian Pacific Railway has instituted a greatly improved service in the matter of train connections of Canadian Pacific trains with Canadian Pacific steamships at the ports of Montreal and Quebec. Under this arrangement which is made possible by the joint management of railway and ocean lines, passengers from Victoria and Vancouver and all intermediate points bound for Europe are practically guaranteed an uninterrupted journey to their destination.

For some years Canadian Pacific steamships have been sailing at 10 a.m. Passengers traveling by afternoon trains from Montreal and Toronto, and by night trains from Hamilton and Toronto (Yonge Street Station) both due at Montreal at 8 a.m., have connected with steamships sailing from Montreal at 10 a.m. or with the steamship special leaving Montreal at 9 a.m. for steamships sailing from Quebec. Under the new arrangement this guarantee of connection with steamships is extended to all regularly scheduled trains from points farther west. If any of the trains from western points are delayed in arrival at Montreal, the steamships will be held two hours, if by so doing the passengers can embark at that point. If the delay is longer, the steamship will proceed to Quebec and there await the delayed passengers. Every effort will be made to have these trains connect with the steamships at Montreal, but if they are by any chance prevented from so doing, or not connect with the steamships at Montreal, the company will arrange transportation for passengers booked to sail from Montreal. Attendants will meet trains at Windsor Street, Montreal, to assist passengers in transferring to the steamships; or if sailing from Quebec, to assist their transfer to the train that is to carry them to the steamship dock at the latter port.

"MORE DANGEROUS" AT 20.

A man is "more dangerous" for women between the ages of thirty and fifty than at any other time, declares Lady Angela Forbes in an article published recently.

"Actually a man can be dangerous the minute that he looks at a woman with the eyes of a half-wakened schoolboy. There is no age when a man can be trusted not to make a fool of himself if the time and circumstances are on the side of the temptress," says Lady Forbes.

"The man who is married to a woman of his own age, who has not worn quite so well as himself, is also easily carried. To my mind, the charms of youth are much overrated, and the boy of twenty, however charming he be at first, will be far more dangerous when he is ten or twenty years older."

"The man who is married to a woman of his own age, who has not worn quite so well as himself, is also easily carried. To my mind, the charms of youth are much overrated, and the boy of twenty, however charming he be at first, will be far more dangerous when he is ten or twenty years older."

REX THEATRE

FRIDAY--SATURDAY

WALLACE REID

"THE WORLD CHAMPION"

Gunboat Williams—pug with the pile driver punch!

Some son, you'll say, for a nice respectable papa mixing with lords and dukes! Some lover for a fair lady, queening it over society's elite!

But hurrah for the lad that was never licked! And—come see 'em all fall for Gunboat!

Six joyous reels to a finish, with beauty and class at the ring side.

Based on the famous play "The Champion."

Why you should use Silkstone on your inside walls!

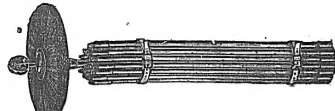

Silkstone is an Oil Paint, not a Kalsomine, and can be washed with soap and water. It hasn't a high gloss finish, which is disagreeable for inside walls, but gives a soft velvety effect that is most pleasing. It comes in Buff, Grey, Blue, etc., and is easily applied. Let us furnish you with Color and help you decide on your Color Scheme.

FRENCH POLICE DISCOVER SPIES; ARREST THREE

Claim That Elaborate System Operates Throughout Country for Benefit of Soviet.

Paris, May 4.—Claiming to have discovered the existence of a highly developed espionage system organized by committees in France for the benefit of the Russian Soviet government, the French police today made three arrests in connection with the alleged plot and promised numerous others within a few days.
The espionage scheme, they declare, involves 200 operatives, and has ramifications in Bresle, Lorient, Toulon and also at powder factories in the center of France and arsenals in the vicinity of Paris.
Secret documents have been stolen from the Bresle arsenals, according to the police revelations, and from the largest powder factory in the center of France, and they claim to have proof that regular couriers have been placed between espionage centers in France and Berlin where documents were assembled, classified and forwarded to Moscow. Intensive Bolshevik propaganda, the police say, has been carried on as a side line.
One of the men arrested is the communist municipal councillor of Ivry-Sur-Seine, just outside of Paris, which is the site of the largest est arsenals in France.
Marcel Chachin, leader of the communist party in France, has been charged with the discovery of a huge plot against the national security of France, should come when the French delegation is engaged in bitter opposition to the soviet delegation in London.
Official observers will not be fooled by the attempt of the capitalistic government to discredit the soviet.

Acting Premier Headley Has Received No News of New Immigration Plan

Acting Premier George Headley stated Thursday morning that the Alberta government had not been approached in any way by the Dominion, so far as he was aware, regarding the bringing in of settlers from Holland and Northern Europe subject to the approval of the province.
Mr. Headley admitted, however, that he had heard such a step was under consideration by the Dominion immigration authorities, but he had not heard of the proposal was mainly to bring experienced farm laborers from Holland to work in the west.
Mr. Headley pointed out that so far as he could ascertain, these men would be especially fitted for employment in dairy farms and such places, and in his opinion would not necessarily force other men out of work or add in any way to the unemployment situation. They would permit greater production to be carried out in the dairy industry and in other specialized farming.

Scheme Advanced.
In this connection Calgary papers have carried a story to the effect that the Dominion would be able to get desirable settlers from Holland and Northern Europe if an arrangement could be made whereby the province of Alberta would guarantee to place these people. It was claimed that the province would have absolute say as to whether or not these settlers should be brought in.

No News of Premier.
It is not known whether or not the matter of such immigration to the west was taken up with Premier Greenfield by the federal authorities while he was at Ottawa, for no word has come from the Premier for several days. No minister of the government has received any communication from Hon. Mr. Greenfield, and press dispatches have not mentioned his whereabouts for nearly a fortnight. He has been expected home for the last week or so. Hon. Mr. Brownlee, attorney general, is also beyond the pale of publicity in the East, since the interview on the natural resources at Ottawa some time ago.

ENGINEERS AND MASTERS STAND FIRM ON ISSUE

Men Assert They Will Not Be Starved Into Unacceptable Conditions

London, May 5.—The engineering dispute, which promised an early settlement ten days ago, seems to have reached a deadlock with both the unions and the employers standing out firmly on the question at issue, which is the right of the masters to order overtime at their discretion without consulting the unions. The lockout ordered Wednesday affected 400,000 additional workers, which brings the total affected by the strike to 800,000 men. Wednesday, the shops kept open all day for the men who were willing to return, this same policy being continued on Thursday morning. A few availed themselves of the opportunity and returned.

Simultaneously with the action of the government inquiry at Westminster, and at the first session Wednesday afternoon, the men presented their case. Thursday morning another session was held, at which the masters had the floor. J. Bromley, president of the engineers' union, made a powerful appeal to the tribunal, quoting effectively Shakespeare's line: "He that owns means whereby I gain my livelihood owns my life." He directly accused the employers of preferring what he termed the "pernicious system of overtime" rather than to reorganize their workshops and adopt the more modern methods of production.
In the meantime the situation grows more ominous, owing to the fact that hungry men, who have been out for the past six weeks, collect in ever-growing groups outside the gates of the large works all over the country. So far there has been no violence, but already ugly murmurs are heard from the men, who assert they will not be starved into unacceptable conditions by the employers.

GREAT BRITAIN TO SEND HER BEST STOCK TO DOMINIONS

London, May 5.—Lieut. Col. C. Amery, minister of agriculture, invited the Canadian Press and other Dominion Presses to the board of admiralty yesterday to help him clear up what he conceived to be some misunderstandings with regard to the export of livestock.

Col. Amery was evidently disturbed by Sir Clifford Sifton's recent declaration that the Dominion was "useless, inefficient, unemployable people on Canada, and was the greatest crime which could be conceived against Canada."
Col. Amery, in this connection, reminded that Canada, as a result of the war, had been a great help to the Dominion. He pointed out that the bill to be sent to the Dominion was a crime against Canada, the crime amounted to suicide. Col. Amery insisted that the bill was purely permissive, its operation being contingent upon the Dominion themselves carrying out a scheme intended to harmonize with the foreign legislation that admitted individuals be sent out to one of the dominions unless approved by representatives of the Dominion.
Col. Amery said it was a curious commentary upon Sir Clifford Sifton's criticism that he, Sir Clifford, declared that the bill meant the entry into the dominions of the best stock in the world, the British house of commons was fearful that it meant the withdrawal from Great Britain of some of its best men.

CRIMINAL GANGS HAVE NEW YORK MAPPED OUT

How gangs of criminals have mapped out the city is a story which boundary lines are as exact as those of police precincts, with each district having its own territory. The gang for hold-up purposes, has been told to the authorities by Hubert J. Shikany, a former army transport captain, now a confessed gunman and gangster, who was arraigned for the first time in court as a result of the revelations, the police allege, six important robbery mysteries have been solved within a few weeks, and nine men have been arrested. Fearing that the gang would take revenge against Shikany, the court consented to his removal from the city pending sentence on June 2.
Capt. Shikany gave excellent service during the war, but when retired found himself without a job. He came back to his old haunts in the Yorkville section, and renewed youthful acquaintances with old companions. Many of these friends, so the story runs, despairing of work, had become hold-up men and picked their way through the city. The gang and organization more complete than is found in many more legitimate businesses. It is given an opportunity, or perhaps, invitation is more suitable—to join a group of highly skilled amateurs operating in Yorkville.

WATER FLOWING ON BRANDON STREETS; RESSINBOINE IS RISING

Brandon, Man., May 5.—During the day the Assiniboine river continued to rise and last night had passed the point reached by the flood last night. The water is now flowing over First street in places, and some of the outbuildings on the flats have been shifted. Judging from reports received from higher up the Assiniboine Valley, rise of at least another foot may be looked for this morning.

WILD PARSNIP IS FATAL TO SEVEN OF ONE FAMILY

Deaths Follow Each Other In Space of Four Hours After Meal.

L'Original, Ont., May 5.—Seven members of the Lacroix family died yesterday under particularly tragic circumstances as a result of eating a poisonous herb known as wild parsnip. It is believed that the children of the family dug up the herbs along the banks of the Ottawa river. The deaths followed at intervals within the space of four hours after the noon day meal.
The dead are: Joseph Lacroix, grandfather, aged 65 years; Mrs. Lacroix, 40, the father of the victims; Mrs. C. Lacroix, his wife, and four children, aged 11, 10, 8 and 6 years respectively.
The only survivors are Gaston aged 3 years and Henri George, aged 17 months. Gaston is seriously ill at the home of friends, but his recovery is expected.

ACCIDENTAL DEATH

A verdict of accidental death due to poisoning was returned at an inquest this afternoon.
Mrs. Lacroix was the first of the victims to show the effect of the poisoning. Twenty minutes after the meal she was noticed by a neighbor to collapse in her garden. Assistance was rendered, but nothing was thought of her illness because of the fact that she had not been in good health for some time past.

COLLAPSED ON ROAD
General alarm was felt shortly afterwards when Leopold, aged 10, and his sister, aged 8, were found lying on the main street crying that their mother and father were seriously ill at their home.
The brave little kiddies, themselves seriously ill, succeeded in calling a doctor, and then on the way back to their home suddenly collapsed on the roadside. They died in the arms of their neighbors shortly afterwards in great pain.

In the meantime medical assistance had been called, and Mrs. R. Smith, T. W. Smith and D. Boardman, worked heroically on the remaining members of the family, finally resorting to the use of strychnine injections in their efforts to counteract the effect of the poison already in the systems of the victims. Their efforts proved unavailing, their patients dying at intervals until the youngest members of the family alone survived.

CENTRAL CHINA FORCES TAKE FULL CONTROL OVER PEKIN

Troops of Chang Tso-Lin Are Reported Fleeing Toward Mukden.

Pekin, May 5.—Gen. Wu Pei-Fu was in full control of Peking at noon today, and Gen. Chang Tso-Lin, whose forces he routed yesterday, a fierce battle south of the city, was reported fleeing to Mukden. Chang's army is retreating in disorder toward Tientsin. Observers here believe Chang's complete collapse has ended the hostilities.
Pekin, May 5.—Gen. Chang Tso-Lin, commander of the Feng Tien forces, has suffered reverses on three points of the battlefield, according to consular advisers received here.
At Machang, south of Tien Tsin, Chang's losses are said to have been heavy. Along the Hun river at a place called Puan Hsien, it is asserted his troops have been driven eastward. The routing of the Manchurian leaders' troops from Chang Sin Tien, which forms the northwest terminus of the battle line appears to be complete.
The gates of the city were being attacked by Chang, after evacuating the vicinity of Chang Sin Tien, boarded trains and sped to Peking. The forces of the city were held in a stand for a while. Troops of men from the defeated army approached the city, but were repulsed. The Chinese civil war forces were permitted to enter the city, and the walls of the city quiet prevailed. All foreigners are reported to be safe.
Except for the main body of Chang's forces, which has retreated eastward, his northwestern front is said to be disorganized.
Diplomatic circles here discredit the report of Wednesday that Gen. Wu was killed. Nevertheless they are without definite confirmation or denial.

IN PRAISE OF THE MOUNTIES

Buffalo Express:
An attempt to abolish, or reduce to the vanishing point, the Royal Canadian Mounted Police has failed in the Canadian House of Commons. This picturesque organization of ways has been a useful one, and ought to be worth its salt now. It is on the job when trouble starts and nips many a disorder in its incipient. As the years go by, it is possible that the expense of maintaining the force will be more than offset by the money saved by its making unnecessary the calling out of militia for strike duty, and the loss of mobility, the intelligence of the individual constables, and the high traditions of the organization, make it one of which any country might well be proud.

ALBERTA CROP REPORT

First Official Crop Report issued by the Publicity Commissioner, Department of Agriculture, Edmonton, Thursday, May 4th, 1922.

Conditions attending seeding of spring crops are satisfactory in most parts of the province, according to the first official summary of crop conditions compiled from reports received from agents.

Southern Area: The southern area has been favored by heavy precipitation during April. Through practically the whole of the south moisture conditions are better than for several years past, while in some places the land is reported to be too wet for seeding. In this area wheat seeding is general and should be completed next week. A heavy acreage was seeded to fall rye and the crop is looking particularly promising at the present time. The moisture has given a strong root, and in many places the crop is covering the ground. In many of these districts rye forms from 25% to 30% of the total acreage. From all that can be determined at the present time a heavy crop of rye will be produced.

Central Area: Seeding is somewhat further advanced in the central part of the province, many places reporting 90% of wheat seeding done. The condition of the land generally is better than for some years past. There is no occasion for anxiety on this account, however, as the moisture which invariably comes in June and July in this area is the determining factor. The seeding of oats has commenced, but will not be done until the middle of the month.

Northern Area: Moisture conditions in the north are all that could be desired. Wheat seeding is general and should be finished next week. Seeding of oats will commence about the 15th.

The season generally is somewhat later than usual, particularly in the southern part of the province. With the appearance of warm weather, rapid growth will be made, however. It is somewhat early to estimate what the probable crop acreage will be. From present indications it would appear that an acreage slightly in advance of last year will be realized.

Grasshoppers: Investigation by officials of the Department shows that grasshopper eggs are laid in large numbers over most of the southern and central areas of the province.

Extensive preparations have been made for a campaign against this pest. A complete organization is now in the field, and large stores of poison bait have been purchased by the Department and stored at various points.
Live Stock: Live stock generally is not in good condition. Losses have been small, except in certain parts of the south, where the late snowstorms caused some losses among horses, cattle and lambs. Speaking generally, conditions would appear to be as good as have obtained for several years past.

YALE KEY, No. 18809, FOUND ON 4th St. Owner can have it by applying at News Office.

HIGHEST CASH PRICES PAID FOR LIVE POULTRY, at

G. W. BALL'S CASH MEAT MARKET

PHONE 4 RED DEER

Lebts & Debtors

If we give a merchant our custom, we have a right to expect him to advertise—to tell us weekly in the columns of "The Red Deer News" what he has for us. Advertising is shop news, designed to inform us, save our time, and bring to our attention desirable merchandise.

Every retailer who is alive to the interests of his customers has a message—often many messages—for his customers concerning new goods, special offerings, and things that we ought to know about. Customers and non-customers will be attentive and responsive to these messages, if they are delivered every week in the form of advertisements in "The Red Deer News." The way to get more business is to ask for it.

A Note to Merchants

Would YOU buy much or regularly from firms that never solicit your trade? Do you not say—"The firm that wants my business must come after it?"

Yet some of you say, in effect, to your customers—"We're here. If you want our goods, come and get them, but don't expect us to go after you." It's a poor rule that doesn't work both ways.

Shop Where You Are Invited to Shop

PENHOLD NOTES

The U.F.A. are putting on a picnic at Geo. Donnelly's on May 13th. They will have good live sports, baseball, etc. Supper by the ladies. More next week.

The married men played the single men at baseball on Friday night, and a very good game resulted in a tie—10-10. The many interested spectators are waiting expectantly for the return match, which will likely be this week.

The Penhold Dramatic Co. are putting on "The Minister's Wife" in the hall, on Friday, May 12. Admission, 50 cents; children under nine, free.

Robinettes are living on the old Zappa place this year.

The Pogates have taken the house and farm lately occupied by Mr. Halliday, and owned by J. Smith.

Kyrstina are very busy at their garage, and have installed a Wayne gasoline pump.

Work on Dave Field's cement basement is well under way.

The Dominion Telephone Co. have unloaded two cars of telephone poles for the west country.

Mr. James Ritchie was suddenly taken with appendicitis on Monday, and had to be operated on that evening.

Mrs. Newland, who has been visiting with Mrs. T. Stewart since Easter, returned home on Friday.

Mr. Horie spent the week end in Edmonton, on business for the firm.

Mrs. Harie spent several days in Calgary last week.

Wells Bros. have opened up a butcher shop next to the garage, and will now cater to the needs of the public.

Mrs. W. E. Pixley, Domoney Bros. and others have shipped cattle this week.

A cordial invitation is extended to all ladies to attend a "Thimble Tuck" given by Mrs. Jaa. Reeves at her home on Wednesday afternoon, May 10th. Cars will leave at 7 p.m. in the Memorial Hall, under the auspices of the Women's Institute, and in aid of the Memorial Hall fund.

Penhold's Big Annual Sports Day and Picnic will be held on Wednesday, July 5th, this year. The baseball boys are getting in shape for a big season's playing. The tennis club is also active.

Wally Reid Trains for Role in New Photoplay

Star of "The World's Champion" Fleets Stunts With Readiness in View

When Wallace Reid, Paramount star, agreed to do the title role of "The World's Champion" from the successful play by Thomas Loudon and A. E. Thomas, as his new starring vehicle, which will be shown at the Rex Theatre next Friday and Saturday, he drew a large order, for to portray a prizefight champion and to show the pugilist in action in the role in which he grabs the prize belt, is a stunt that cannot be taken before the camera.

Although Reid was no novice with the gloves, having been for some time a boxing enthusiast, there were nevertheless many tricks for him to master, and to perfect his role, he went through a daily course of rigid training for several weeks prior to the filming of the fight scenes.

Under the clever direction of Philip E. Rosen, the scenes of "The World's Champion" are most realistic, and the picture is declared to be highly diverting. J. E. Nash accepted the play to the screen, and Mr. Reid is supported by Lois Wilson, Lionel Belmore, Henry Miller, Jr., Helen Dunbar, and other players.

Oh, Skinny, ask your mother if you can come to Red Deer on the 24th.

NEXT SUNDAY IS MOTHER'S DAY

Greeting Cards 5c to 75c Each
Cut Flowers, on sale Saturday, 50c to \$3.00 dozen

NEW AUTO MAP FOR 1922, now ready
Price, \$1.00, post paid

This is the official map of the blazer trails of Alberta and connecting trails in B. C. and U. S. A. Greatly improved and enlarged. Every auto owner should have a copy.

OUR NEW FIREWORKS ARE HERE, ready for the 24th. Get your supply early.

Gaetz-Cornett Drug & Book Co.

THE Rexall STORE

Big dance on the 26th at the Armadillo.

Dance in the Divided Community Hall, Friday, May 12th.

Be sure and help the Salvation Army in their appeal this week.

The regular monthly meeting of the I.O.O.F. will be held on Friday, May 12th, in the Library at 3 o'clock.

The annual meeting of the Methodist Ladies' Aid will be held in the church parlour this Thursday afternoon at 2.30.

Gordon Fraser, general agent for the Citizens Insurance Co. is in the city on Friday to appoint an agent for his firm here.

Now is the time to have your chimneys cleaned. E. Haste, Phone 277, has the equipment and the expert, once all work guaranteed.

GOOD GRASS! For the information of the Calgary Albertans, we might say that this is the home of good grass, the kind with the kick in it, and we do not have to resort to artificial irrigation, or any other kind of irrigation for that matter, to get something going in the community.

CHURCH NOTICES

Knox church, May 14th—Public worship at the usual hours. Morning subject: "Why is the Church So-bath the first day of the week and not the seventh day?"—a study of the evidence. Sabbath school at 2.30 o'clock. Evening subject: "A boy's logic, a man's life and a woman's responsibility." In the morning of the right use of the Lord's Day. Problems of Youth series.

St. Luke's (Anglican) church: Divine service on Sunday next, May 14th, 8 a.m. Holy Communion; 11 a.m. Matins and sermon; 7.30 p.m., Choral Evensong and Benediction.

At the Sunday school, the primary class will meet in the Alexander Hall, Ross St., at 2.30 p.m. in the vestry.

Evarts, Sylvan Lake, May 14th—Mr. J. D. McLeod, who has just arrived from Halifax to take charge of the Leslieville work, will take Mr. McKee's work at the usual hours next Sunday.

NEW APPOINTMENTS

The following is a list of the new appointments to the mission fields in the Presbytery of Red Deer.

In some cases the men have been re-appointed. All the men will be on duty this month.

Hunterville—W. D. Amos.
Lone Pine—E. M. Kirk.
Milner—L. M. Waddell.
Penhook—J. M. Fraser.
Louisiana—J. G. Olip.
Cumberland, Valley Centre—Rev. Chas. McKay.
Brookfield—Harold Smith.
Holdrege—R. J. C. Herbolson.
Finnis Mission—Rev. J. E. Luoma.

Londor, Eckville, Albion—W. H. Mitchell.
Leslieville—J. D. McLeod.
Rocky Mt. House—Rev. D. B. Davidson.
Nordegg—Rev. John McKay.
The Rev. Dr. Unsworth and Mr. Dunington are accompanying Dr. Unsworth as an evangelistic singer, are holding three weeks special services in the country west of Red Deer. These men are giving their services under the department of evangelism of the Presbyterian church. They will be at Leslieville and all who are within driving distance of these meetings will find it worth their while to attend with their whole families and invite their neighbours to do the same. After they leave Leslieville they will spend two weeks on Mr. McKee's field. These men have been secured by taking advantage of a vacant post in their program, and it is hoped that this special privilege will be appreciated, and will result in much good to all the people in the districts visited.

POULTRY MEETING

There will be a special meeting of the Red Deer Poultry and Pet Stock Association, Wednesday evening, May 10th, at 8 o'clock in the city hall. Dr. George will read his report of the executive meeting of the provincial association in the country west of Red Deer. These men are giving their services under the department of evangelism of the Presbyterian church. They will be at Leslieville and all who are within driving distance of these meetings will find it worth their while to attend with their whole families and invite their neighbours to do the same. After they leave Leslieville they will spend two weeks on Mr. McKee's field. These men have been secured by taking advantage of a vacant post in their program, and it is hoped that this special privilege will be appreciated, and will result in much good to all the people in the districts visited.

CARD OF THANKS.

Through the columns of The News, I wish to express my appreciation of the great kindness shown me during my sickness by all those who, by their valuable time at this busy season, in planning and putting in my grain on the Arthur Ross place, in which I have an interest.

LEVI E. MILLER.
Poplar Ridge.

L. O. L. NO. 2854

Meets in the Orange Hall every second and fourth Thursday evening at 8 o'clock.

Visiting brethren always welcome.

J. ARDELL, Sec. 95c.

SHIP YOUR CREAM—DIRECT TO THE—RED DEER CREAMERY.

Highest market price for each and every can. Your can and your cheque are both returned without delay. We pay express charges both ways.

You will find it to your advantage to deal with us. Let us demonstrate the fact.

COAL

Our coals are the best obtainable and you will like our service. Our main aim is to please you.

Good spruce and tamarack wood at \$3.00 a load.

J. MALCOLM CO.

CANDY STICK COMPETITION

We have two gigantic candy sticks in our window. If you have seen better or bigger ones you will have to show us. With every 50c purchase we will give a free guess as to the weight of the bigger stick; and with each 25c purchase a guess as to the weight of the smaller. Nearest guess gets the candy stick.
